No1 Scaffolding have been working for Hollandia since August 2004 on the Wembley National Stadium Project carrying out access solutions to enable Hollandia to erect the "bowl".

Due to the magnitude of the Wembley Project safety is absolute paramount and No1 Scaffolding have continued to work to the highest standard required.

Hollandia are working to an extremely tight schedule and No1 Scaffolding have continued to deliver their works within the time frame.

Regards,

Project manager
Charles Padl
