RE: SAFE PRACTISE AND SAFETY AWARDS

Dear Richard,

Please accept this letter as acknowledgement for the professional manner that your workforce conducted themselves during the dismantling of the North atrium scaffold during 21st January as witnessed by the Wembley Safety team.

The set-up of the exclusion zone (fixed), the resource level and method of strip out from height clearly identifies an understanding of safe systems of work combined with excellent supervision.

Each of the operatives involved will be included in the safety award campaign for January.

Thanking you again for your continued support in managing high standards of site safety.

Yours sincerely,

Jim Senior
Health and Safety Manager
Multiplex Constructions (UK) Limited
